MDA Website: <http://mda.maryland.gov/AnimalHealth/Pages/default.aspx>

Effective: January 1, 2023

The Maryland Department of Agriculture's (MDA), Animal Health Program strives to safeguard Maryland's animal industries at our fairs and shows. With an increased potential of disease transmission occurring when large numbers of animals gather for exhibition, MDA has set forth requirements for exhibitors to follow at Maryland fairs and shows. As an exhibitor, you can help reduce the potential risk of introduction and spread of infectious and/or contagious diseases by following the species-specific health requirements below.

IMPORTANT 2023 ANIMAL HEALTH REQUIREMENTS TO MENTION:

1. CERTIFICATES OF VETERINARY INSPECTION (CVI):

- The accredited veterinarian is required to send the original (white and canary) copies to MDA Headquarters within 7 days of completion.

2. LIVESTOCK:

- All cattle and swine must have an EID (electronic identification) or RFID (radio frequency identification) 840 tag. Cattle and swine with non- electronic ID tags will be dismissed upon entry.
- All sheep and goats must have Scrapie Identification in the form of an official Scrapie Identification tag, or a legible and healed tattoo matching identification on breed registration paperwork.
- Livestock petting zoos and pony rides will be allowed with proper CVI, indicating rabies vaccination status, and self-certification documents.

3. POULTRYAVIAN INFLUENZA TESTING:

- All in- state poultry must be tested for avian influenza within 30 days prior to the exhibition or originate from an NPIP U.S. H5/H7 Avian Influenza Clean flock.
- All out-of-state poultry must be tested for avian influenza within 21 days prior to the exhibition or originate from an NPIP U.S. H5/H7 Avian Influenza Clean flock.

Maryland Law provides penalties for violations of Animal Health Law and Regulations. This includes but is not limited to cattle, sheep, New World camelids (llamas & alpacas), goats, bison, privately owned cervids, swine, equine, and rabbits. Livestock does not include dogs, cats, and exotic pets. Poultry is defined as any living domestic bird raised for food or other purposes including, but not limited to, chicken, turkeys, ostriches, emus, rheas, cassowaries, other ratites, waterfowl, and game birds.

For out-of-state animals, see species specific out of state requirements. Upon request, a person who exhibits livestock shall present for inspection all reports, test charts, and appropriate health certificates required to accompany the livestock and poultry.

Maryland Department of Agriculture

2. **CERTIFICATE OF VETERINARY INSPECTION** is required for most entries.
 - a. **MARYLAND ENTRIES:** All Maryland entries must be accompanied by a Maryland Certificate of Veterinary Inspection (CVI) for show, except poultry, equine and rabbits.
 - The Maryland CVI is **valid for 120 days for fairs and shows**, providing that the status of the herd or animal(s) does not change.
 - The Maryland CVI is a **legible record**, made on an official Maryland State form, issued by a Maryland accredited veterinarian, issued for animals being shown within the state and not crossing a state line, which shows that the animals listed thereon meet the health requirements of the state of Maryland.
 - The Maryland CVI **must be completed and signed by a Maryland accredited veterinarian** using the proper selected report on the CVI form. Each animal must be properly identified on the CVI. The veterinarian must select if this document is for fair and exhibition season, sale or other (with explanation).
 - The veterinarian is required to send the original (white and canary) copies to MDA Headquarters **within 7 days of completion**, the middle (pink) transport copy is to be retained by the owner and should accompany livestock during travel. The last (goldenrod) copy is for the veterinarian's records.
 - b. **OUT-OF-STATE ENTRIES:** All out-of-state entries must be accompanied by an **Interstate Certificate of Veterinary Inspection**, except poultry and rabbits.
 - The Interstate CVI is **valid for no more than 30 days** from the date of inspection.
 - An **Interstate CVI must be legible**, made on an official form of the state of origin, issued by an accredited veterinarian, and issued for animals being imported to this state within 30 days before the entry of the animals, which shows that the animals listed thereon meet the health requirements of the state of Maryland.
3. **SELF-CERTIFICATION:** A completed *Self-Certification* is required for all entries except for equine entering equine-only events.

Self-Certification forms must be filled out within 24 hours prior to loading and presented upon request to the designated representative.

 - A *Self-Certification* is an official Maryland document signed by the owner/caretaker/transporter stating that the animals presented for exhibition are not showing any signs of or having recent exposure to (within 21 days) infectious or contagious diseases.
 - *Self-Certification* forms are species-specific for livestock (ruminants, swine), equine, poultry and rabbits. These forms are available on MDA's Animal Health website:
<http://mda.maryland.gov/animalhealth/pages/fairs-shows.aspx>
4. **TEST REPORT FORMS.** Testing is required for some species, and if so, a test report form will be required unless otherwise documented on the CVI. See species-specific requirements for details of testing and test report requirements.

Examples of test reports:

Avian Influenza Testing Report
Pullorum-Typhoid Testing Report

Coggins Test Report (Equine Infectious Anemia)
Tuberculosis Test Report

Maryland Department of Agriculture

5. **MARYLAND POULTRY PREMISES IDENTIFICATION** – All Maryland premises with poultry are required to be registered with the Maryland Department of Agriculture. The Poultry Premises number must be noted on the Test Report or other documentation of NPIP U.S. Pullorum-Typhoid and U.S. H5/H7 Avian Influenza Clean or State H5/H7 Monitored status.
6. **ANIMAL REJECTION POLICY.** Animals may be rejected from an exhibition, either denied entry or removed from the exhibition, as described below:
 - a. **FAILURE TO PROVIDE COMPLETED DOCUMENTATION IS GROUNDS FOR REJECTION.**
 - b. **FOR A SKIN LESION SUSPICIOUS OF RINGWORM TO BE CONSIDERED NO LONGER CONTAGIOUS TO OTHER ANIMALS OR PEOPLE, NEW WOOL OR HAIR MUST COMPLETELY COVER THAT LESION.**
 - c. Livestock with clinical signs of infectious or contagious diseases or external parasites are not permitted entry or allowed to remain at the exhibition. Clinical signs include but are not limited to: active lesions of ringworm with resulting loss of hair, sore mouth, sore nose, caseous lymphadenitis, mange, or multiple warts easily visible without close examination.
 - d. Suspicion of communicable disease is adequate grounds for rejection. Confirmed diagnosis is not required, since timely removal of suspicious animals is required by law to protect the remaining animals.
 - e. Exposed animals may be rejected: If it is believed that there is a potentially serious communicable disease present, all animals originating with the suspect animal may be rejected. Vesicular diseases are of particular concern.
 - f. All decisions are final.
 - g. All parties involved will be notified of all rejections, including exhibit sponsors and supervisors.
 - h. Animal rejections can be made by MDA Animal Health veterinarians or field inspectors, private veterinarians contracted by the show, Maryland Extension employees, or individuals designated by the fair or show as a 'responsible person.'

4-H Online Animal Husbandry and Quality Assurance Training

One of the top priorities of Maryland 4-H is ensuring that animals involved in 4-H projects are treated humanely, receive proper care, and (if they are to enter the food supply) are safe to eat. In an effort to make sure that all 4-H members receive the same information, Maryland 4-H requires members who complete animal science project to online animal husbandry and quality assurance training.

All 4-H members who exhibit alpacas, cattle, goats, horses, llamas, poultry, rabbits, sheep, and swine are *REQUIRED* to complete the online training as a requirement for entering animals in fairs and shows. DEPARTMENT I RECORD BOOKS

(Talbot County 4-H and FFA Only)

No entry: saved for FALL fair day

RULES

1. One entry per class.
2. A Champion and Reserve Champion **may** be selected from each class based on outstanding merit.
3. Judges will be given a copy of the Talbot County 4-H Project Requirements and Record book guidelines.
4. **Record books should ONLY contain information about the member's project work and 4-H experiences since January 1 of the current calendar year.** Previous record books that have already been judged by the 4-H program will not be judged again. The purpose is to allow members who keep their record books up to date to share progress of **9 months of the current year's** work. Your project for the year will not be complete, but you can show the progress of your project by describing what you have accomplished so far. You may include photos of yourself working with your project animal, etc. You may also include anticipated talks or exhibits and the date you plan to do them.

CLASS

101 Junior Record Book assembled in a cover (current calendar year's work only)

201 Intermediate Record Book assembled in a cover (current calendar year's work only)

301 Senior Record Book assembled in a cover (current calendar year's work only).

Note: A senior portfolio is not considered by judges to be a stand-alone record book because the amount of information in a portfolio is much less than in a record book and the two can't easily be compared. Senior members may choose to submit a record book and substitute the portfolio's resume in place of the summary record and the portfolio's essay in place of the 4-H story. (This is the standard practice in several counties.) Judges will want to review your project records and other documentation to better understand the work you have accomplished this year.
